***"LOVE IS: THE GREATEST TRUTH, the HIGHEST RELIGION, the beauty of the divine soul, the most precious gift of God and the most wonderful gesture for happiness!"***

*Shaktee or 'prakruti' or 'maha-mayini' is the creation factor of the universal existence whose highest transcendental un-manifested perception illuminates in the divine eternity beyond time 'param-eishwaryee' maha-maya – the cosmic existence in*

*purest subtlest nectar aspect. 'Param-Eishwaryee Bhagawattee' transcends from the 'maha-purush-param-atman' (divine cosmic great spiritual soul of cosmic Gods) to the dance of pure 'divya-gharbha-karma' (divine creation). "Maha-Jagad-Amba Bhauneshwaree Param-Eishwaree" (the divine cosmic manifestation beyond time) gives birth to 'maha-kaal' (eternal time), 'Maha-Maya' (whole existence) and 'Maha-kaya' (universe). From the fusion of forces and energies of the 'Saraswatti' (the cosmic creation), 'Kali' (the cosmic dissolver of karma), Laxshmee (the cosmic preserver of karmic life), emanates 'pranna-ayush' Life of life.*

*Maa is this beautiful divine life of life! To live a life filled with surprises, one must believe in one's heart that something wonderful is about to happen - a feeling of a butterfly fluttering as though MAA is present here and now.*

*To love one's life, one must love one's true self, one must believe in the love one gives to life and all others. To Love life, believing in one's own dreams, for dreams are perpetual and our life is but like a dream. From one dream we go onto another dream. Therefore, one must believe in one's own inner spiritual power and in one's own inner spiritual potential, and one's own innate goodness to share love, to give love and to be in love forever, for love is divine.*

*Being in love like Krssna was with Radhika is a boon of life that is rare and extra ordinarily beautiful. To wake every morning with the awe of just being alive, to discover each day the magnificent tyrants of dreams, to envision awesome beauty in the world, to explore and embrace life in one's self and in everyone, to*

*touch the blossom of God's love in the petals of a freshly bloomed rose, you see each dawn.*

*Let us reach within ourselves to find our own unique “specialness” that makes others smile. Amidst greatest tragedy, let us strive to amaze ourselves and cheer those around us to their strong divine potential of each new day. Let us not be afraid anymore of death, dissolution and ending of life of life.*

*Let us not be afraid anymore to admit that each one of us are less than perfect; full of weaknesses; this is the essence of our great humanity.*

*Let those who love us help us and let us in return help those whom we divinely love. Let us trust enough to be able to take and know that it is in the human trust we see beautiful most wonderful GREAT LOVE. Let us look with hope to the horizon of today for today is all we truly have. This present moment is all we truly have. Now is all we have. Let us think of BEAUTY, imagine BEAUTY, envision BEAUTY, become that beauty in beautiful wonderful thoughts.*

*Let us send healing love to all those that have abandoned us in misunderstandings that are not our making but a burden of timely karma. Let us live this day well, let a little sun out as well as in. No one can spoil our own spiritual divinity. It is our birth right to be divinely happy.*

*Let us cherish this life of life in which there manifests the “maha-mayini”. From the ‘maha-pranna’ (great spiritual life) and ‘maha-maya’ (great cosmic life) we came and to the same we merge to become Maa’s existence. Let us create our own rainbows. Let us be open to all our possibilities, in nurturing HUMANITY all possibilities and miracles. Let us always believe in*

*miracles. Let us truly believe that our life is filled with God's Miracles without the shadow of the doubt.*

*Krssna is a poet, a flute master, a musician, an artist, a philosopher, a dreamer, a writer, a childlike, a lover, a beautiful mind, a transcendental seer, a divine illusion even because of Radhika! Radhika is NOT one rather Radhika is everywhere like a mirage. Radhika is an illusion of 108 'gopees' (angels) forming a beautiful LEELA (this colourful life of life), but the real soul never perishes. Radhika is a dream but soul divine is reality. Radhika is an illusion but soul is truth (sattyam). Radhika is playmate but spirit is subjected to 'dharama-karma' (fulfil religious duty). Radhika is pure imagination, maha-maya - a grand cosmic illusion, upon which the leela (the colourful dance of life), the 'rassam' leela (the beautiful divine dance of life), and the 'khwaabb'/swapna the dream of true love transpires. One who laughs and loves lasts the longest! Love! Love! Love! LOVE IS THE GREATEST RELIGION!*

***Tomorrow may or may not be – let us not waste “TODAY”!***

*Amity (maitree) love 'prem' is the germinating seed for true universal religion of humanity based on no nationality, colour, creed, cast, or race. The sacred stream of AMITY-LOVE flows like a free river that caper to the divine nature. When universal religion without syllables and complex paradoxes flows and sings and dances as if each one of us is offering to one another a gift of appreciation, encouragement and acknowledgement then there will not be any hurt in the society. All that will remain will be respect and friendship between one person and another, between one nation and another.*

*Each one of us is like a flower in the garden of mother earth and each one of us has a karmic purpose to be here on this earth for a karmic time. If we understand with deepest compassion, deepest consideration, deepest insight, that we are sprouting from the same earth albeit our roots are different and our fates are different then we will be able to become somewhat united in our spirits. The human spirit of life is destined to merge no matter what so why all the differences for the sake of political, personal and selfish ambitions? Why not remove the veil of institutional man made religions and just LOVE one another without the barriers of nationality, religion, race, and colour.*

*May the sacred stream of LOVE forever flow in our hearts.*

*May our hearts sing and dance and rejoice even without any inhibitions and reservations to the wonderful most beautiful music of universal humanity.*

*May our consciousness awaken our hearts hearken to realist that those politicians who only confuse, segregate, destroy, separate, and reign in political and individualistic selfish ego powers in the name of religion are cruel wretched inhumane double faced!*

*May we always show light and path to those less fortunate than ourselves. May we always guide and show light to our younger generation children.*

*May we never fear the wretched of this earth and may we always be grand and proud to uphold good values based on fearlessness. Out of fearlessness, may we nurture and cherish the true humanity and altruism of real true religion – religion based on universal LOVE and not confines and constitutions, not all this, that and the other man made institutions!!!*
